

CALL FOR REVIEW ARTICLES

Environmental Chemistry for a Sustainable World

<http://www.springer.com/series/11480>

Dear Colleague,
we kindly invite you to submit a high-quality review article for publication as a chapter in *Environmental Chemistry for a Sustainable World* (ECSW). ECSW is a new book series issued by Springer, a major international publisher with 30+ millions subscribers. Chapters are highly downloaded and indexed in the Web of Science with a DOI.

PUBLISHED VOLUMES

1. Nanotechnology and Health Risk
2. Remediation of Air and Water Pollution
3. Green Materials for Energy, Products and Pollutant Management
4. Pollutant Diseases, Remediation and Recycling
5. CO₂ sequestration, biofuels and depollution
6. Hydrogen production and remediation of carbon and pollutants
7. Pollutants in buildings, water and living organisms

SERIOUS PEER-REVIEWING

Articles will be peer-reviewed by the Editors and reviewers.

POST-PUBLICATION IN ENVIRONMENTAL CHEMISTRY LETTERS

After publication in ECSW, accepted chapters will be published in an abridged form in the journal *Environmental Chemistry Letters*.

INSTRUCTIONS

Please send a tentative title to Dr. Didier ROBERT. Examples of published chapters are available upon request.

TOPICS

Analytical chemistry, novel methods
Biofuels, alternative energies
Biogeochemistry
Carbon cycle and sequestration
Climate change, greenhouse gases
Ecotoxicology and risk assessment
Environmental chemistry and the society
Genomics and environmental chemistry
Geoengineering
Green chemistry
Health and environmental chemistry
Internet and environmental chemistry
Nanotechnologies
Novel concepts in environmental chemistry
Organic pollutants, endocrine disrupters
Participatory research with end-users
Pesticides
Pollution of water, soils, air and food
Radioactive pollutants
Remediation technologies
Waste treatment and recycling
Toxic metals

Please do not hesitate the Editors for help
